By Hyfire

The TAU-CP-R-01 Hyfire Taurus Manual Call Point (MCP) is a fully intelligent device which is compatible with all Taurus translator and expander modules. The unit has a resettable plastic element, which displays a drop down warning indicator when operated. A key is supplied with the MCP for reset and case opening. The product is powered by two lithium CR123A batteries with a typical life of 10 years. A transparent cover protects against accidental operation, whilst a weatherproof enclosure is available for use outdoors or in hostile environments.

### KEY FEATURES

- Bi-directional wireless communication
- Can be used with Taurus addressable and conventional translators
- 22 pairs of field channels
- Dual channel redundancy
- Long communication range ( $\cong$ 1 km in open air)
- 10 year battery life
- Utilises standard low-cost lithium battery technology
- Resettable element
- Easy scan & link programming option
- 3rd party approval to EN54-11 and EN54-25
- 5 years product warranty

### TECHNICAL SPECIFICATION

Operating frequency range	868 – 870 MHz
Max radiated power	14dBm (25mW)
IP rating	42
Weight (without batteries)	160 g
Batteries	2x CR123A (3 V & 1.2 Ah)
Battery lifespan (typical)	10 years
Dimensions	88 x 87 x 61 mm
Operating Temperature	-10°C to +55°C
Max humidity (non condensing)	95% RH

### TECHNICAL INFORMATION

### STANDARDS & APPROVALS

- BS EN 54-11: Manual Call Points
- BS EN 54-25: Components using radio links and system requirements

**PROTECTIVE CALL POINT COVER**

---

The Protective Call Point Cover dramatically reduces both misuse and the risk of accidental activation making it ideal for sports halls, manufacturing-processing facilities, and other high-traffic areas. In addition, the Protective Call Point Cover ensures that two positive actions are required to activate the Call Point, making it suitable for territories where dual-activation is mandatory.
